CROSSBAUM
CROSSBAUM IMPLANT SYSTEM

PRESENTATION

CROSSBAUM® is the registered trademark of our company Argo Baum. We are an European manufacturer of medical devices, specialized in dentistry, built on a solid experience, that combines in-depth technical and business expertise, with a strong industrial knowledge of medical devices across international markets.

In September 2015, due to our long-term professional experience in the field of dentistry and having been producing for several international brands in the dental area, we decided to launch our own brand of Prosthetic Components for Oral Rehabilitation – CROSSBAUM® – providing new prosthetic solutions for implantologists and dental technicians, adding value to the market.

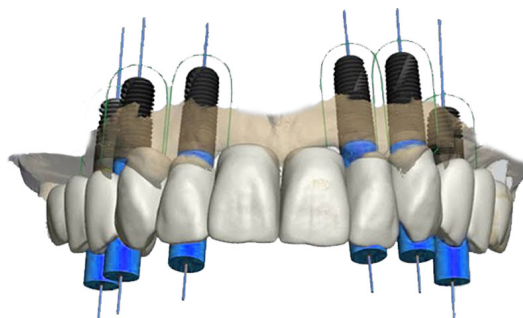

We use the State-of-Art technology in the field of dentistry and the most challenging materials, assuring extreme precision and quality in our products, putting our utmost care in every product that we make.

CROSSBAUM'S PROSTHETIC COMPONENTS FOR ORAL REHABILITATION ARE COMPATIBLE WITH THE DENTAL IMPLANT SYSTEMS MOST USED WORLDWIDE

In CROSSBAUM® we guarantee the best product at the best price on the market, which makes us the ideal partner to add value to your business model.

In CROSSBAUM® we work hard every day to achieve total satisfaction of our customers, by offering dental clinics and laboratories significant cost savings, ensuring that production deadlines are met and the delivery is made in time, always maintaining high quality standards and offering an exemplary aftermarket support.

CROSSBAUM® OFFERS AN INTEGRATED DIGITAL SOLUTION FOR DENTISTS AND DENTAL LABS.

QUALITY

We are an ISO 9001:2008, NP EN ISO 9001:2015, EN ISO 13485:2012(2016) and CE Marking no 0051 certified manufacturer of medical devices, that meets the highest customer and dentistry market statutory and regulatory requirements.

In CROSSBAUM®, quality is our main concern and our Management Quality System is subject to regular internal and external audits, that matches the high quality and prosthetic solutions required by the market.

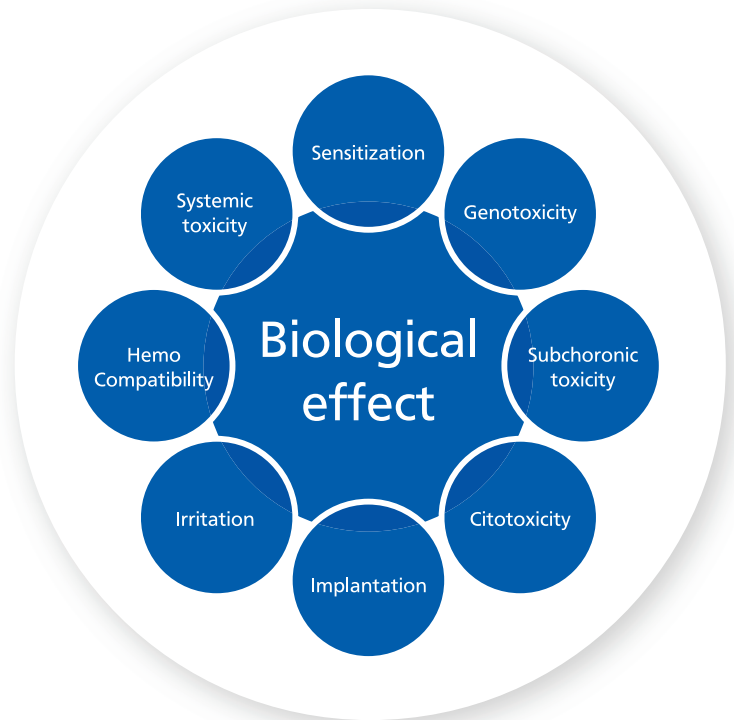

WARRANTY

BIOLOGICAL TESTS

In CROSSBAUM®, all products have been evaluated for biological safety, confirming the biocompatibility of the titanium used to manufacture the devices and to support the evaluation of biological safety from the start.

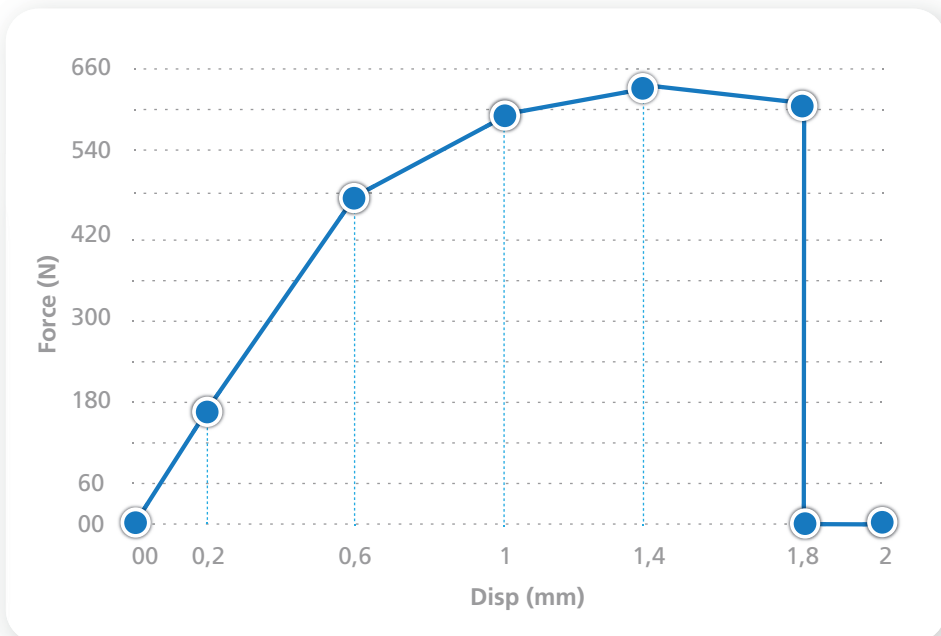

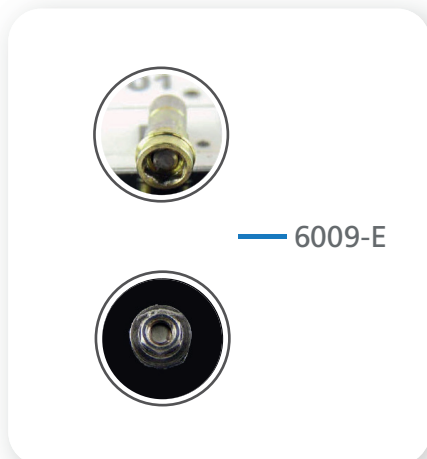

It is of the upmost importance to develop a process of biological evaluation, in order to determine the performance of the prosthetic components for implants, the selection of material and the characterization and verification of the biological safety.

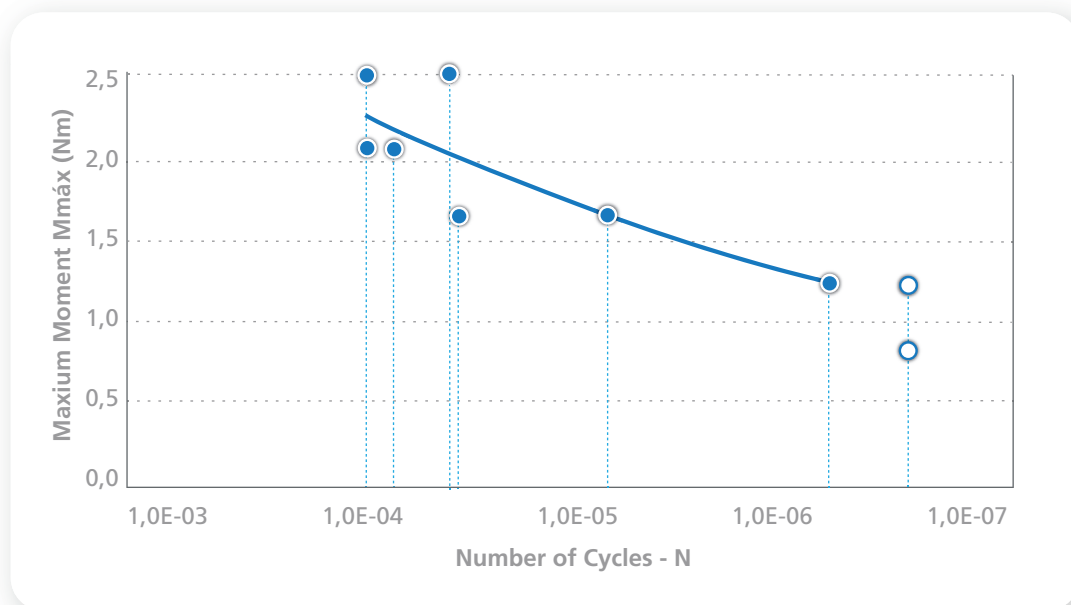

MECHANICAL TESTS

CROSSBAUM® prosthetic components for implants were subject to mechanical tests, namely Bending Fatigue Test under the standard ISO 14801:2016 and the Torsion Test under the standard ISO 13498:2011, in order to guarantee the intended purpose of the prosthetic components, as well as its safety use.

Curve obtained in the static test. Specimen after static test. The specimen failed by rupture.

Maximum Moment x Number of Cycles curves.

● Test Data
○ Run Out
— Linear Regression

$\text{Log}N = 5,96 - 6,65 \times \text{log} Mmáx$
 Coef. correlation = -0,863

STERILIZATION

CROSSBAUM® prosthetic components for implants are Non-Steril, but nevertheless, we recommend the parameters for an efficient cleaning and sterilization, that were subject to validations tests, performed by an external laboratory of international recognized merit.

Vapor sterilization is the preferred and recommended sterilization method, with the following parameters ($T \geq 135^\circ \text{C}$, $\geq 5 \text{min}$), with a drying period of 10 min and a pressure between 1 and 3 bar. However, do not sterilize the titanium components in the original bags, since they are not compatibles with the recommended sterilization method.

HOW TO MAKE **YOUR ORDER**

FAST & SIMPLE

Our customers are our top priority!

We have at the disposal of our customers a professional team, exclusively dedicated to assist and support in their orders, making each purchase in a fast, easy and convenient way.

You can also visit our on-line shop, place your orders and benefit from our exclusive online offers.

Visit our eShop at www.crossbaum.com/eshop
and discover the exclusive offers we have for you!

or scan the QR Code above with your smartphone or table.

IMPORTANT INFORMATION

The use of Crossbaum® Prosthetic Components, as well as all other products, should only be done by Dental Professionals, with the appropriate knowledge and instruction in the handling of these specific products, in a safe way and in accordance with the instructions of use provided by the manufacturer. It is the dental professional's responsibility to use the device, in accordance with the provided Instructions for Use and to determine, if the chosen device is clinically suitable for the individual patient's situation.

The electronic Instructions for Use for our products are available on the website <http://www.crossbaum.com/ifu>

AVAILABILITY

Some of the Crossbaum® Products and Services listed in this catalog may not be available in all countries.

GENERAL TERMS AND CONDITIONS

All offers, sales, deliveries and other services provided may differ from country to country.

General terms and conditions in force in a specific country can be viewed on the website: <http://www.crossbaum.com>

DELIVERIES AND SHIPPING COSTS

Deliveries and shipping costs of Crossbaum® products may differ from country to country. Therefore, despite the fact that we deliver within and outside the European Union, please contact us, so that we can provide you with all the necessary information regarding the specific countries, where delivery is available, as well as the cost of shipping, exception and all other relevant information.

AFTER MARKET SUPPORT

In Crossbaum® we work hard every day to achieve total satisfaction of our customers, by offering dental clinics and laboratories significant cost savings, ensuring that production deadlines are met and the delivery is made in time, always maintaining high quality standards and offering an exemplary aftermarket support.

SPECIFIC PRODUCTIONS

If you require a specific production, or if you are looking for some prosthetic components compatible with brands not mentioned in this catalog, please contact us. We are specialized in turn-key projects, delivering complex and challenging projects of the highest technological standards.
